

WESTCO PRO-AIDE 40

Westco Pro-Aide 40 is an effective homogenizing additive used to improve the compatibility of polymers of different polarities. It also functions as a wetting agent to improve the dispersion of fillers.

TECHNICAL DATA

RANGE

Appearance

Dark brown pellets

Softening Point ° C

101+/- 5

Storage

One Year

Packaging

25 kg. polyethylene bags

Recommended Use

2 to 8 phr.

Rev. 6/00
