

## TECHNICAL INFORMATION

### Westco OBSH

**Chemical name:** p,p'-oxybis (benzene sulfonyl) hydrazide

Westco OBSH is a non-staining, non-discoloring blowing agent for rubber and plastics. It has a low decomposition temperature allowing it to be used without activators.

#### Specifications:

Appearance:	<u>White Powder</u>	<u>Oiled White Powder</u>
*Moisture, %:	0.5 max.	0.5 max.
*Decomposition temperature, °C:	158-164	158-164
*Gas release, ml/g:	120-140	120-140
*Particle Size, um	2-15	2-15
Specific Gravity:	1.53	
*Oil Content, %		1-2

\*Values reported on certificate of analysis
