

## TECHNICAL INFORMATION

### WESTCO PRO-AIDE 34A

PRO-AIDE 34A is blend of high molecular weight fatty alcohols, fatty acid esters, and fatty acid soaps. It is a process slip aid for a number of applications including rubber compounding, plastics, inks, and dry inorganic products. It is an excellent flow modifier with superior shear properties. Recommended loadings are 2-8 PHR in all calendering, extrusion, or molding applications.

*Melt Point	40°C Min
*Acid Value	2.0 Max
*Iodine Value	15 Max
*Saponification Value	70 Max
Color	Cream White
Specific Gravity @ 15.6 C, typical	0.820
Storage Stability	24 months
Packaging	25 kg boxes in metric ton skids

\*Actual data will be reported on Certificate of Analysis
