

TECHNICAL INFORMATION

WESTCO GC 105

Westco GC 105 is a C9 Hydrocarbon Resin with high coumarone indene content. Excellent tackifying resin offering both green tack and high temperature tack.

*Softening Point (R&B °C)	100°C min
*Acid Number (mg/g KOH)	max 1
*Bromine Number	max 30
*Color (50% Toluene)	max 14
Appearance	Pale amber pastille
Specific Gravity	1.05-1.10
Packaging	25kg Bags

*Actual data will be reported on Certificate of Analysis
