

## TECHNICAL INFORMATION

### WESTCO CAO-90

**Absorbs all free moisture in rubber compounds**

CAO 90 is a high quality calcium dispersion. The product's binder system consists of a naphthenic oil which provides a desiccant that is a free-flowing dustless powder.

#### Specifications

*Calcium Oxide (Available)	81% Min.
*Specific Gravity, typical	2.41 Min.
*Ignition Residue	86% Min.
*Typical CaO Particle size	<70 microns
Form	Powder
*Total CAO through 325 mesh‡	98% Min.

\*Actual data will be reported on Certificate of Analysis

‡Reported from Raw Material Certificate of Analysis by the procedure of CaO.

Proper storage of desiccants is essential for their use. Always keep product in a cool dry place, stored away from humid air. Any partially used containers should be kept tightly closed to prevent any premature reaction. Avoid contact with exposed skin and eyes. Always wash thoroughly after handling.

Westco Desiccants are considered non-hazardous waste and may be disposed of in accordance with Federal, State and local regulations.
