

## TECHNICAL INFORMATION

### WESTCO TiO<sub>2</sub> TITANIUM DIOXIDE (Anatase)

#### GENERAL DESCRIPTION

Westco TiO<sub>2</sub> Anatase is a water dispersible dry pigment recommended for use in the manufacture of rubber, plastics, paints and coatings, and paper. It has excellent brightness and high tint strength.

#### TYPICAL PROPERTIES

Appearance	White powder
*Assay	98% Min
*Oil Absorption	26g/100g Max
*pH	6.5 - 8.0
*Lightening power(compared to standard)	100% Min
*Residue on 45 um sieve	0.10% Max
*Drying Loss (@ 105°C)	0.50% Max
*Water soluble	0.50% Max
Specific Gravity, typical	3.8

Packaging: 25 kg multi-wall paper bags

\*Actual data will be reported on Certificate of Analysis
