

**WESTCO™ TBTD Accelerator
Tetrabutylthiuram Disulfide
CAS# 1634-02-2**

Technical Data:

WESTCO™ TBTD is a liquid rubber-accelerator used mainly in natural and synthetic elastomers.

It is a non-blooming accelerator in EPDM. It acts as a retarder for CR with ETU based cure systems. It is approved for use in articles in contact with food per 21 CFR 166.2600 and 21 CFR 175.105.

Specifications

*Appearance	Amber liquid
*Solidifying	< 20°C
*Ash content	0.5% Max.
*Heating Loss (2 hr @50C)	2.0% Max.
Sulfur	28.0 – 32.0%
Assay	98.0% Min.
Specific gravity, typical	1.06

*** Actual data will be reported on Certificate of Analysis**

Packaging: 100 kg drums

Storage: Store in closed containers at 25 – 40C away from direct light
